

Creative Tots Kindergarten Prep

Designed for students who turn four by August 31st

Why Creative Tots?

As expectations are rising in early childhood education, we at Creative Tots are taking notice of these recent trends. We strive to achieve the best as we align our curriculum to incorporate these ideas for your child.

Our research-based curriculum provides age-appropriate, high-quality academics designed to exceed the standards. These are derived from the State of Ohio Content Standards for Early Childhood Education, which assures accountability for educational goals in the state of Ohio.

Our program focuses on solving problems, using language, developing new vocabulary and engaging in organized intellectual activities. We recognize and celebrate the developmental stages of children who will soon be entering into Kindergarten while maintaining the chosen milestones of each age group.

We also believe that along with the importance of academics we must also meet social, emotional and physical needs of the child as a whole. We are devoted to providing you and your child with a learning environment that will allow them to build lasting friendships, gain confidence in their abilities, as well as academic readiness for the future.

What is Unique about our Kindergarten Prep Program?

Creative Tots' K Prep program focuses on *early reading* lessons and reading strategies for your child. Research shows that ages 4, 5 and 6 are the crucial ages for children to master early reading. After the age of 6, children are playing "catch-up" to cement their literacy fundamentals. Creative Tots uses an early reading program that emphasizes specific reading strategies that will help your child to develop a strong foundation for early reading. The week's curriculum is structured around a five-day learning sequence. Day one focuses on introducing a new text and high-frequency sight words that are critical for young readers to learn. Day two and three re-emphasizes comprehension and integrates the sight words into individual learning activities. Day four, students reread the text and create individual sentences with the focus on what makes a sentence. Days five focus is on fluency of reading the familiar text. Fluency is the ability to read a text accurately, quickly, and with expression. Fluency is important because it provides a bridge between word recognition and comprehension. All of the week's lessons are also integrated into the home environment, encouraging families to work on practicing sight words and phonics in fun and meaningful ways. *Mathematics* is a key element of our K Prep program. Our focus is developing a strong number sense. A strong number sense encourages students to think flexibly and promotes confidence with numbers. This allows students to understand how numbers can be taken apart and put together in different ways. Science is also an integral part of our k prep program. We focus on earth sciences through hands on experiences and activities to build the skills students need to be successful in future academic endeavors.

Kindergarten Prep Registration 2018-2019

Child's Name _____ Birth date _____ Age on first day of school (August) _____
