

Creative Tots Toddler Program

Designed for students who are 18 months by the first day of school

Late enrollment is accepted for students who are 18 months after the first day of school if spots are available or you may pay full tuition to secure a spot for later in the school year when your child's turns 18 month.

Why Creative Tots?

As expectations are rising in early childhood education, we at Creative Tots are taking notice of these recent trends. We strive to achieve the best as we align our curriculum to incorporate these ideas for your child.

Our research-based curriculum provides age-appropriate, high-quality academics designed to exceed the standards. The curriculum is rich in opportunities to solve problems, use language, develop new vocabulary, and engage in organized intellectual activities. We recognize and celebrate the diverse developmental stages of toddlers while maintaining the chosen milestones of each age group.

We also believe that along with the importance of academics we must also meet social, emotional, and physical needs of the child as a whole. The first priority of our teachers is to create a nurturing environment for your child where they will feel safe, loved, and respected. It is then that your child can reap the benefits of the learning environment we are devoted to providing you with that will allow them to build lasting friendships, gain confidence in their abilities, as well as academic readiness for the future. Classrooms are strengthened through combining ages 18 months to 2 ½ year olds in a group setting still allowing for age-appropriate small group activities. Children are encouraged to work and play comfortably among their individual levels of development.

About Creative Tots Toddler Program

The most fertile time of our lives for absorbing sounds and meanings of words, developing motor skills, establishing social confidence and determining emotional well-being are the toddler years. From birth to age three, children have brains that are two and a half time more active than that of adults. They are busy building the foundation for a lifetime of learning. Our goal at Creative Tots is to foster and advance the natural curiosities of children in a safe, nurturing environment.

About Creative Tots Music Enrichment Program

In addition to the academic components of Creative Tots toddler program, we also offer a music program once a week that is included in your tuition for the school year. Research shows that when learning a song or a musical instrument your child experiences a unique sensory experience that is a crucial factor in children's learning readiness for school. These experiences are especially crucial during a child's developmental years. Ms. Joanie will be returning to us as our music teacher. She has over twenty years of musical experience, with advanced training in guitar and voice. In addition, she has taught in New York City at the prestigious Calhoun School.

Toddler Program Registration 2017-2018

Child's Name _____ Birthdate _____ Age on first day of school (August) _____

Parent(s) Name _____
